STARCON ANCHOR SYSTEM

CERTEX Danmark A/S is the manufacturer of the STARCON System.

The System consists of a complete lifting programme for lift and handling of concrete panels and pipes:

STARCON Anchors, STARCON Lifting Eyes and STARCON Formers available for safe load ratings between 1.3T and 20.0 T .

The STARCON ANCHOR SYSTEM has been thoroughly tested, is well documented and meets all demands for quality and safety.

The STARCON ANCHOR SYSTEM can be used in combination with other systems, provided that the products meet the same demands as the STARCON products as regards material, strength and dimensions.

The STARCON ANCHOR SYSTEM is going through an extensive quality control before the products leave the factory.

The STARCON SYSTEM is covered worldwide by IF.

STARCON has experienced engineers, who are able to calculate choice and position of the STARCON anchors.

Yours faithfully
CERTEX Danmark A/S
